Board Member (Since June 07, 2023)

Board of Directors' Statement:

Respected Shareholders,

The Board is pleased to present to you 2023 Annual Report including summarized financial results and achievements.

Statement from the Chairman of the Board of Directors:

The local market is facing difficult conditions due to the decline in local demand and the widening gap between supply and demand, which has led to continued pressure on selling prices since the year 2018 until the end of 2023. Local demand witnessed a decline of 6.9% during the year 2023 comparing with 2022, and the volume of clinker stocks which is the biggest problem for the sector in the Kingdom reached to around 40 million tons by the end of 2023, approaching the historical peak that the sector reached in the year 2019, and this is despite the stability of the sector's exports in the Kingdom between 8 To 9 million tons annually during the past three years.

Your company was able to adapt to the challenges of the local market and competition in global markets to produce the best possible financial results and achieve the highest return on invested capital, thereby maintaining its position as a leading company in the cement sector in the Kingdom of Saudi Arabia. Relying on and benefiting from its experience, the company worked successfully to penetrate new global markets, which made the total countries that the company export its products to 21 countries around the world. The company's total exports of cement and clinker during the year 2023 was around 40% of the sector's total exports in the Kingdom, this contributed to achieving the highest operational efficiency, which was reflected in improving our financial results, cash flows, and controlling the level of clinker stock. This achievement comes as evidence to the company's success in implementing its strategy and vision to offset a part of the impact of the decline in local demand.

Following is a summary of the operational and financial indicators for 2023:

- Clinker production during 2023 was 7.20 million tons, an increase of approximately 2.9 % compared to 2022.
- Total local sales of cement reached to 4.5 million ton during 2023, a decrease of 15% compared to 2022.
- Clinker stock at the end of 2023 reached to 3.1 million tons, a decrease of approximately 5.6% compared to the end of 2022.
- Total clinker and cement exported during 2023 amounted to 3.4 million tons, an increase of 58% compared to 2022.
- Sales revenue for 2023 was SAR 1,462 million, an increase decrease of 3% compared to 2022.
- Net profit for 2023 reached to SAR 381 million, a decrease of 4.5% compared to 2022.
- Earnings per share for 2023 amounted to SAR 2.49 compared to SAR 2.61 for the year 2022.
- Net cash flow from operations for 2023 decreased by 17% to reach SAR 533 million.
- Dividends distributed during the year amounted to SAR 497.25 million (profits for the second half of 2022 and the profits for the first half of the year 2023).
- Total assets at the end of the year decreased by 2% to reach an amount of SAR 3,214 million, compared to SAR 3,278 million at the end of 2022.
- Total shareholders' equity at the end of the year decreased by 6% to reach an amount of SAR 2,159 million, compared to SAR 2,293 million at the end of 2022.

Ultimately, we will strive to continue achieving high levels of operational efficiency and to manage the market requirements and conditions in a way that maintains the leadership of the company at the local and regional level.

Khaled Abdulrahman Al-Rajhi

Chairman of the Board of Directors

Production:

Clinker Production:

Total quantity of clinker produced during 2023 amounted to 7.20 million tons compared to 7.00 million tons in 2022, i.e., an increase of 201 thousand tons, which is around 2.9%.

On the other hand, total clinker production for all cement companies in the Kingdom during 2023 was 57.4 million tons in comparison with 57.7 million tons in 2022, i.e. a decrease of approximately 0.4%.

Cement Production:

Total quantity of cement produced during 2023 amounted to 5.91 million tons in comparison with 6.36 million tons in 2022, i.e., decrease of 449 thousand tons, i.e., approximately 7.0%.

Clinker Stock:

The clinker inventory at the end of 2023 amounted to 3.14 million tons, in comparison with a quantity of 3.32 million tons at the end of 2022, i.e., decrease of approximately 5.6%. On the other hand, clinker inventory for all cement companies in the Kingdom has been increased approximately by 13.9% compared to the end of 2022.

Operation and Maintenance:

Saudi Cement Company puts on its top priorities the achievement of operational excellence through:

- Adopting the best practices and standards for its operation and maintenance.
- Continual improvement of its processes through periodical audits, inspections using new techniques and Benchmarking against worldwide performers.
- Continual improvement of the energy efficiency of its operations.
- Upgradation & developments of its operation and maintenance.
- Improving digital maturity of its operation and maintenance.

Saudi Cement Company has maintained its supremacy in producing high-quality types of cement products and has the capability and flexibility to produce other types of cement as per market requirements, considering its economic feasibility.

Sales:

The quantity of local sales of Saudi Cement Company during 2023 amounted to 4.5 million tons compared to 5.3 million tons in 2022, a decrease of 15%, while the total local and exported cement and clinker sales was 7.8 million tons during the year 2023 in comparison with 7.4 million tons in the year 2022. The drop in local sales was mainly due to intense competition in local market and as a result of on-going challenges driven by fluctuations in oil prices and the high interest rates which negatively impacted the construction sector, especially housing projects which is highly dependent on long-term loans.

During the year 2023, the total local cement sales for the entire sector had reached to 47.3 million tons compared to 50.7 million tons in the year of 2022, a decrease of 6.9%. While the total local and exported cement and clinker sales was 56 million tons in 2023, compared with 61 million tons during the year 2022, a decrease of 8.3%.

Exports:

In 2023, Saudi Cement Company total cement exports reached 1.5 million tons, up from 1.1 million tons in 2022, representing an increase of 36%. Also, Saudi Cement Company total clinker exports reached 1.86 million tons in 2023, up from 1.03 million tons in 2022, representing an increase of 81%. Albeit geopolitical disruptions in many regions, we continue to build on to explore new vistas, believing in the quality of our products and that our capabilities are limitless.

While the total export sales of cement and clinker for the sector amounted to 8.5 million tons during the year 2023, compared to 9.0 million tons in 2022, a decrease of 5.4%.

What was applied and not applied from the Corporate Governance regulations and reasons:

Saudi Cement Company has already issued its own Corporate Governance Charter, which was previously approved by the Board of Directors on 22nd of Safar 1430 (17 February 2009), also approved its related amendments in accordance with the Corporate Governance Regulations issued by the Capital Market Authority, this took place on 19 January 2023. Saudi Cement Company is currently applying all the Corporate Governance Regulations, except for the following:

Results of Annual Audit on the effectiveness of internal control procedures in addition to the Audit Committee opinion:

The Internal Audit Department of the Company carries out a periodic audits and reviews of the various departments / activities of the Company to ensure the effectiveness of internal control system and procedures in safeguarding the Company's assets and assessing operational risks and the adequacy of performance effectiveness. The results of these internal audits assignments did not show any material weakness in the internal control system of the Company, and it was found that the internal control procedures were operating effectively. In addition, the External Auditors usually conduct an evaluation of the system as part of their audit of the Company's interim & annual financial statements, whereby they are enabled to access all the minutes of the audit committee meetings as well as also to access the audit reports of the internal audit department for the period subject to their examinations.

Audit Committee Opinion:

Based on the yearly approved Internal Audit Plan, the Internal Audit of the Company performs periodic audits and reviews of the various departments / activities of the Company including the review of internal control and submit their reports to the audit committee. Based on the results of these audits and reviews performed during the year 2023 and previous years, the audit committee assessment of the operational and financial internal control and systems and procedures did not show any material weakness and found that the internal control systems were operating effectively.

On the other hand, the External Auditor also performs an evaluation of the Internal Control system during the annual audit. The Company enables them to access all documents, systems, policies & procedures, and the minutes of the meetings of the Audit Committee and the Internal Audit Department audit reports for the period / fiscal year under the review.

Audit Committee recommendation regarding the extent of the need to employ an internal auditor in the Company in case if the Company does not have one:

The Company has an internal audit Department.

Audit Committee's recommendations which are in conflict with the Board of Directors resolutions, or which the Board has rejected in regards of the appointment of the Company's external auditor, his dismissal, the determination of his fees, his performance evaluation or the appointment of an internal auditor, justification of these recommendations and reasons of rejections:

None.

Details of the Company's social contributions:

Your Company continues its support toward local community institutions, and this is part of its commitment to serve and improve the local society, our culture urges for giving and help the others and a good number of the employees contributed to such initiatives.

During the year 2023, the company supported the below Societies:

1. Accidents & Casualty (Trauma) Center in the National Guard Hospital, Al Ahsa:

Based on Company's social responsibility towards the community and as to the approval of the Extraordinary General Assembly held on 4/6/1431H (18/5/2010) after the recommendation of Saudi Cement Company's Board of Directors for allotting an amount of SR 50 million (Fifty Million Saudi Riyals) from the Conventional Reserve for the construction of the Accidents & Casualties Center in King Abdul Aziz Hospital of the National Guard Health Affairs in Al- Ahsa Governorate. Since the Health Affairs have started the execution of the project and following a

visit to the project site by some Company's officials, the Executive Management has signed a contract for donating the construction of the Center in King Abdul Aziz Hospital in Al -Ahsa on 23/6/2014. Saudi Cement Company paid three instalments amounting SR 30 million as of the end of 2023, and the remaining will be paid based on the project progress.

2. Social Charitable Societies:

- Al-Oyoon Charitable Society.
- Charitable Holy Qura'an Memorization Society in Al-Ahsa Province.
- Charitable Holy Qura'an Memorization Society in Eastern Province.
- Albir Charitable Society in Eastern Province.

3. Occasions and other Ceremonies:

- Golden sponsorship of Al-Ahsa Investment Forum.
- Supporting the National Day Celebrations Fund - Al-Ahsa Governorate.
- Supporting National Day celebrations - Al-Ahsa Municipality.
- Sponsoring the Efaa Spark event organized by the Efaa Association for the Care of People with Disabilities.

Description of the principal activities of the Company and its associated companies:

Principal Activity:

Saudi Cement Company's activity is limited confined to the manufacturing, producing clinker, and cement related products. Hence, the Company does not carry out any other activities nor does it produce any other products.

Furthermore, the objectives of the subsidiary company (United Cement Company in Bahrain) are to trading/selling building materials, metal structural materials, plumping and heating equipment and its supplies, and marine and costal water transportation to the seller. The subsidiary company carries out the activity of selling building materials (cement) and does not carry out any other activity.

Plans, Decisions & Future Expectations:

The Company has no plans of expansion in production facilities in the short and medium-term due to the expected level of demand the level of the Clinker stock Kingdom wise.

Risks that the Company might encounter:

Saudi Cement Company implemented a Risk Management System which supports the identification, evaluation, and mitigation of the risks through-out the Company. The Company might face operating risks such as raw materials and fuel prices increase which impacts operation cost.

The Company might face financing risk of rising Murabaha rates related to the outstanding Islamic loans within its liabilities, also the risk of foreign currency exchange rates fluctuation related to its foreign liabilities.

To manage the operating risks, the Company implemented a program to mitigate all the risks. This program includes, but not limited to, an intensive preventive & predictive maintenance programs for the operating assets, upgradation / modernization of the equipment, digitalization etc., To manage its financing risks, the Company ensures the availability of an adequate Islamic banking financing to address the liquidity risk concerning its inability to raise funds from operations to meet its obligations when they are due. To manage its collection and credit risk, the Company limits credit sales only to customers with high credit standing and against bank guarantees, as well as dealing with highly credit rated banks licensed by the Saudi-Central Bank.

Dividend Distribution Policy:

The Company distributes its annual net profits after deducting all general and administrative expenses and all other costs and provision for Zakat as follows:

1. 10% of the net profit is set aside to formulate the Statutory Reserve, the Ordinary General Assembly has the right to stop contribution to that reserve when it reaches 30% of the paid-up capital.
2. The Ordinary General Assembly and based on Board of Directors' recommendation has the right to set aside up to 5% of the net profit to establish a Voluntary Reserve for specific purpose(s).
3. The Ordinary General Assembly has the right to establish other reserves, to the extent that it serves the interest of the Company or ensures a steady dividend distribution to shareholders. The said General Assembly may also deduct from the net profits amounts for the establishment of new social institutions for the Company's employees or to assist the existing institutions.
4. Distribute out of the remaining profit a first payment to shareholders representing 5% of paid-up capital.
5. As to article 19 from the Company's article of association and article 76 from the corporate governance a maximum of 10% of the remaining profit is set aside as Board of Directors remunerations for the year, taking into consideration the maximum amount allowed by the regulatory and in accordance with the number of attended meetings.
6. It is allowed to distribute the remaining of profit (or part of it) as dividends to the shareholders or retain it as to the recommendations of the Board of director's subject to the approval of the General Assembly.
7. The Company can distribute yearly, quarterly, or semiannually interim dividends as to CMA regulations and as to the approval and the authority given by the General Assembly to the Board of Directors to distribute interim dividends.

Other matters related to the Company:

Quality Certificates:

The Company continues its application and compliance with the International Organization for Standardization (ISO 9001-2015) certifications obtained from specialized and accredited by German Company (TUV NORD) for the Hofuf Plant. This reaffirms the commitment of the Company towards full compliance and implementation of the quality management programs in all its internal administration and production / technical processes with the purpose of attaining the

desired level of efficiency, effectiveness, and continuous improvement for all Company's different operating sectors and functional lines.

The Company continues to comply with the quality standards of the Saudi Standards, Metrology and Quality Organization (SASO), as well as the special quality requirements of some GCC countries.

The Company has continued to comply with the quality specifications of European Conformity (EC) required by European countries for its products from Hofuf Plant.

Hiring and Training of Saudi Nationals:

As a continuation of company's development of its employees to contribute in raising their efficiency, a number of specialized technical and administrative training courses have been implemented for the company's employees during the year 2023,

The percentage of training Saudis has reached 64% of the total number of trainees. And out of the company's keenness to contribute to social development, a group of institute and university students were qualified within the co-op training program in various specializations.

The percentage of Saudization in Saudi Cement Company reached 63% by the end of 2023. Furthermore, the employment rate of Saudis during the year 2023 reached 76% compared to the employment rate of non-Saudis. Saudi Cement Company sought to strengthen its Saudization plan as a national strategic goal and is continuing that endeavor.

Occupational Health and Safety:

Occupational Health and Safety are Saudi Cement company's top priorities. Our aim and aspiration are to conduct cement manufacturing business with zero harm and to create a healthy and safe environment for our all employees, customers, contractors, visitors, and vendors.

In line with the company's goal to achieve and maintain "*zero harm*", Saudi Cement Company:

- Ensure effective implementation of Health and Safety Management System.
- Ensure safe & healthy workplace environment.
- Improve continually the health and safety culture.
- Ensure preparedness and readiness to emergencies through training and periodical mock drills.

The Company is certified and maintained ISO45001:2018, certificate issued by "Société Générale de Surveillance" (SGS) which reflects the commitment to comply with the highest level of health and safety standards.

Environment Protection and Pollution Control:

Saudi Cement Company puts the environmental protection and preservation at the top of its priorities.

It continues implementing the programs in regards of the environmental protection and preservation. From these measures, we achieved the below:

- Implementing the most advanced technologies for dust emissions controls in all projects.
- Continual improvement of the bag filters' efficiency and the addition of new ones.
- Implementing a strict preventive and predictive maintenance program for all existing filters to ensures the continuity of its performance efficiency.
- Online measurements and monitoring of emissions using advanced equipment in all stacks, as well as periodic measurements by specialized companies approved by NCEC (National Center for Environmental Compliance).
- Operating and maintaining of a Sewage Water Treatment Plant, with full respect of NCEC regulations.

- Implementation of Waste Management System as per MWAN (National Center for Waste Management) guidelines.
- Implementation of the tree plantations program.

All the measures taken were enabled the Company to be in line with the requirements defined by the National Center for Environmental Compliance (NCEC). And accordingly, the company has NCEC certifications for its Plant, Quarries, and its Port Terminal.

In addition to the same, The Company is certified ISO 14001:2015, certificate issued by “Société Générale de Surveillance” (SGS) which reflects the commitment to comply with the highest level of Environmental standards.

Further, the Company is certified ISO 50001:2018, certificate issued by TUV Rhineland. which reflects the commitment towards energy efficiency and environmental preservation.

Conclusion:

The Board of Directors concluded 2023 Annual Report and expresses his appreciation and gratitude to all Saudi Cement Company shareholders for their confidence and support and prays to Allah Almighty for His Blessings to our country and to our leaders, His Majesty the Custodian of the Two Holy Mosques King Salman bin Abdulaziz Al-Saud, and his Royal Highness Crown Prince Mohammed bin Salman bin Abdulaziz Al-Saud, First Deputy Prime Minister, and Minister of Defense.

The Board of Directors also extends his appreciations and gratitude to all government agencies, private sector entities, banks and to all Saudi Cement Company's customers and suppliers for their continuous support and last but not least, to the Company employees for their continues efforts and their determination for the Company to continue its growth and prosperity.

May Allah bless you all,
The Board of Directors
