Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") as endorsed in Kingdom of Saudi Arabia (KSA) and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

SAUDI CEMENT COMPANY
(A Saudi Joint Stock Company)
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the three month and nine month periods ended 30 September 2023
(Expressed in Saudi Riyals in thousands, unless otherwise stated)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.1 Statement of compliance (Continued)

The condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2022 ("Last Annual Financial Statements"). However, changes in accounting policies, if any and selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements. The results for the interim periods are unaudited hence interim results may not be an indicator for the full year results.

2.2 Basis of preparation

These condensed consolidated interim financial statements are prepared under the historical cost convention, using the accruals basis of accounting, except for certain employees' benefits which are measured at present value of the defined benefit obligation using the projected unit credit method and equity investment designated at FVOCI which is measured at fair value.

2.3 Functional and presentation currency

These condensed consolidated interim financial statements are presented in Saudi Riyals (SR) which is the Company's functional and Group's presentation currency.

2.4 Use of judgements and estimates

In preparing these condensed consolidated interim financial statements, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

2.5 Significant accounting policies

The accounting policies applied in these condensed financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2022.

2.6 Basis of consolidation

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Parent Company's voting rights and potential voting right.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and non-controlling interest, even if this results in the non-controlling interest having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

SAUDI CEMENT COMPANY
(A Saudi Joint Stock Company)
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the three month and nine month periods ended 30 September 2023
(Expressed in Saudi Riyals in thousands, unless otherwise stated)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.6 Basis of consolidation (Continued)

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any non-controlling interest;
- Derecognizes the cumulative translation differences, recorded in equity;
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained;
- Recognizes any surplus or deficit in profit or loss;
- Reclassifies the Group's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Parent Company had directly disposed of the related assets or liabilities.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

3 NEW STANDARDS, AMENDMENTS AND INTERPRETATION

15 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the condensed consolidated interim financial statements are categorized within the fair value hierarchy.

This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value a financial instrument are observable, those financial instruments are classified under level 2. If one or more of the significant inputs is not based on observable market data, the financial instrument is classified under level 3. As of 31 December 2022, the Group's equity investment designated at FVOCI was determined at level 3 of the fair value hierarchy. However, during the period this investment was disposed off and the related fair value reserve was transferred to retained earnings. The carrying values of other financial assets and liabilities in the condensed consolidated interim statement of financial position approximate to their fair values.
